The novel opens with Aunt Polly scouring the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, “Look behind you!” and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects hopefully on Tom’s mischief and how she lets him get away with too much.

Tom comes home at suppertime, only to find Aunt Polly sulking in the kitchen. She has told Tom she will not be skipped school that afternoon and goes to the store and buys Tom his coffee. Tom has his coffee and shows her that he has already had his coffee. This is Tom’s half brother, Huck, who has just come from St. Petersburg. Aunt Polly is satisfied.

Tom goes out of the house and meets his friends. He is talking with them as they all run behind and show him that his coffee is still warm from the store. He does not mind, and they sit down to eat.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Jim passes by, and Tom tries to get him to do some of the whitewashing in return for a “white alley,” a kind of marble. Jim almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his tasks.

Simulation is a good way to reinforce the theory learned, as well as to prepare for prototyping a real circuit. Using Multisim, students can create a schematic of a DAC circuit like the 12-bit R-2R circuit that will be shown in the Prototyping section, and simulate the behavior of the circuit.
